

# ALLYSON CAMPBELL

I have played an instrumental part in investigating incidents, working with management on proactive plans, and recovering assets. With a commitment to solving for positive solutions in high stress situations, I have developed a strategy that has helped the company recovered over \$50 million in assests, and lead meetings with Federal Government agencies for prevention and intelligence/data sharing.

Currently searching for a data analysist position, with the focus in corporate securirty, that allows me to build tools using visualization and machine learning to help people explore and understand the company risks.
